Brands and sources	GCC approved suppliers
Supplied from	Riyadh, Saudi Arabia; delivery across the Kingdom
Enquiries	+966 51 076 7420 (phone / WhatsApp) Info@alsafsaafcontracting.com

OVERVIEW

Finishing products are the final layer that gives a surface its sheen and protects the work beneath. Al Safsaaf supplies varnishes and lacquers for timber, clear and pigmented topcoats for painted and coated surfaces, and decorative finishes for feature work on wood, metal and concrete.

These finishes enhance appearance while resisting scratches, stains and environmental damage, which is why they are used in furniture finishing, woodwork, decorative projects and industrial coatings. Al Safsaaf sources them through GCC approved suppliers and supplies them with the paints and preparation materials they are applied over, as well as the brushes, rollers and spray equipment used to apply them.

Selection depends on the substrate, the exposure and the look required. Interior joinery can take a lacquer for a fast, hard finish; exterior timber needs a flexible, UV-resistant varnish; floors and worktops need abrasion resistance; metal and concrete need topcoats compatible with the primer system below. Decide between matt, satin and gloss early, confirm compatibility with any stain or sealer used, and test on an offcut before finishing the full piece.

SUPPLY NOTES

- Protective and decorative finishes for wood, metal and concrete
- Resistance to scratches, stains and environmental damage
- Long-lasting coatings for decorative and industrial use
- Supplied with compatible preparation products and application tools

TO CONFIRM AT ENQUIRY

Please state the following so the correct item is quoted:

- Product names and sheen levels
- Solvent or water-based options
- Pack sizes
- Coverage and drying times
- Brands

> **About this document.** This datasheet summarises the product range supplied by Al Safsaaf Trading & Contracting Company. It is not a manufacturer's data sheet or a mill test certificate. Material grade, dimensions, pressure class, coating and certification are confirmed in the quotation, and manufacturer documentation and test certificates are supplied with the goods where applicable.
