Range supplied	Brushes, Rollers, Spray guns, Masking tapes, Protective sheets
Typical applications	Residential painting, Commercial projects, Industrial maintenance
Brands and sources	GCC approved suppliers
Supplied from	Riyadh, Saudi Arabia; delivery across the Kingdom
Enquiries	+966 51 076 7420 (phone / WhatsApp) Info@alsafsaafcontracting.com

OVERVIEW

Painting consumables are the tools and sundries that determine how cleanly and quickly a coating goes on. Al Safsaaf supplies brushes and rollers for cutting in and covering, spray guns for large or textured areas, masking tapes for crisp edges and protective sheets that keep floors, fittings and furniture clean during the work.

The consumables are supplied for residential painting, commercial projects and industrial maintenance, where efficient application, clean finishes and reduced wastage lower the cost of each job. Al Safsaaf sources them through GCC approved suppliers and supplies them alongside paints, preparation materials and finishing products, so a painting contractor or maintenance team can order the full kit together.

Match the tool to the coating and the surface. Brush bristle and roller pile should suit water-based or solvent-based paint and the texture of the wall; spray tips and pressures must follow the coating data sheet; masking tape should be rated for the surface and the time it will stay in place so it releases cleanly. Keep protective sheeting and tape in stock, because running out mid-job costs more in cleaning time than the consumables themselves.

SUPPLY NOTES

- Application tools and masking sundries in one order
- Supports efficient application and clean finishes
- Reduces wastage and rework on site
- Ordered together with paints and finishing products

TO CONFIRM AT ENQUIRY

Please state the following so the correct item is quoted:

- Brush and roller sizes and types
- Spray gun models
- Tape widths and grades
- Sheet materials and sizes
- Brands

> **About this document.** This datasheet summarises the product range supplied by Al Safsaaf Trading & Contracting Company. It is not a manufacturer's data sheet or a mill test certificate. Material grade, dimensions, pressure class, coating and certification are confirmed in the quotation, and manufacturer documentation and test certificates are supplied with the goods where applicable.
