PRODUCT SUPPLY DATASHEET · PLUMBING MATERIALS & SPARES

Plumbing Fittings

Elbows, tees, reducers, couplings and connectors in brass, copper, stainless steel and UPVC for water supply and drainage systems.

White UPVC 90-degree elbow fitting with socket ends on a white background

Product	Plumbing Fittings
Category	Plumbing Materials & Spares
Range supplied	Elbows, Tees, Reducers, Couplings, Connectors
Typical applications	Residential plumbing, Commercial water supply, Industrial piping
Brands and sources	GCC approved suppliers, Hilti
Supplied from	Riyadh, Saudi Arabia; delivery across the Kingdom
Enquiries	+966 51 076 7420 (phone / WhatsApp) Info@alsafsaafcontracting.com

OVERVIEW

Plumbing fittings join, turn, branch and resize the pipework in a building's water and drainage systems. Al Safsaaf supplies elbows for changes of direction, tees for branches, reducers for step-downs in size, couplings for straight joints and connectors for terminating at fixtures and equipment, all intended to give secure, leak-proof connections.

The fittings are manufactured from brass, copper, stainless steel and UPVC, so a contractor can match the fitting to the pipe material in use, and they are supplied for residential plumbing, commercial water supply and industrial piping. Al Safsaaf sources them from GCC approved suppliers and Hilti, and supplies them alongside the plumbing valves and accessories in this category.

Match fittings to the pipe system and the service. Pressure and temperature of the fluid, the jointing method (solvent weld, compression, threaded or press) and compatibility between dissimilar metals all affect the choice. Keep the material consistent through a run where possible, specify the correct thread form where threaded fittings meet valves or equipment, and order a margin of common elbows and couplings for site changes.

SUPPLY NOTES

- Full set of fitting types for direction, branch and size changes
- Brass, copper, stainless steel and UPVC to match the pipe material
- Corrosion-resistant materials for long service life
- Secure, leak-proof connections with straightforward installation

TO CONFIRM AT ENQUIRY

Please state the following so the correct item is quoted:

- Size range
- Pressure rating
- Jointing methods (solvent, compression, threaded, press)
- Material grades
- Applicable standards

> **About this document.** This datasheet summarises the product range supplied by Al Safsaaf Trading & Contracting Company. It is not a manufacturer's data sheet or a mill test certificate. Material grade, dimensions, pressure class, coating and certification are confirmed in the quotation, and manufacturer documentation and test certificates are supplied with the goods where applicable.
