PRODUCT SUPPLY DATASHEET · PLUMBING MATERIALS & SPARES

Plumbing Valves

Gate, ball, check and globe valves for flow control and isolation in domestic and industrial plumbing systems.

Brass ball valves with red handles fitted to copper pipework

Product	Plumbing Valves
Category	Plumbing Materials & Spares
Range supplied	Gate valves, Ball valves, Check valves, Globe valves
Typical applications	Water supply systems, Drainage networks, Industrial plumbing
Brands and sources	Crane, GCC approved suppliers
Supplied from	Riyadh, Saudi Arabia; delivery across the Kingdom
Enquiries	+966 51 076 7420 (phone / WhatsApp) Info@alsafsaafcontracting.com

OVERVIEW

Plumbing valves control, isolate and protect the flow in a water system. Al Safsaaf supplies the four common types: gate valves for full-bore on/off isolation, ball valves for quick quarter-turn shut-off, check valves that let water flow in one direction only and prevent backflow, and globe valves for throttling and regulating flow.

The valves are built for pressure and frequent operation and are available in multiple sizes and materials, which makes them suitable for both domestic and industrial applications. Al Safsaaf supplies them for water supply systems, drainage networks and industrial plumbing, sourcing from Crane and GCC approved suppliers, and pairs them with the fittings and accessories in this category.

Choose the valve by function first. Isolation points need a gate or ball valve that opens fully and does not restrict flow; regulating points need a globe valve; pump discharges and mains connections need a check valve to stop reverse flow. Then match the body material and end connection to the pipe system, confirm the working pressure and temperature, and consider access for operation and future maintenance when positioning each valve.

SUPPLY NOTES

- Gate, ball, check and globe types for isolation, regulation and backflow prevention
- Built for pressure and frequent operation
- Multiple sizes and materials for domestic and industrial systems
- Supplied with matching fittings and accessories

TO CONFIRM AT ENQUIRY

Please state the following so the correct item is quoted:

- Size range
- Pressure class
- Body and trim materials
- End connections
- Applicable standards

> **About this document.** This datasheet summarises the product range supplied by Al Safsaaf Trading & Contracting Company. It is not a manufacturer's data sheet or a mill test certificate. Material grade, dimensions, pressure class, coating and certification are confirmed in the quotation, and manufacturer documentation and test certificates are supplied with the goods where applicable.
