PRODUCT SUPPLY DATASHEET · PAINTING & FINISHING MATERIALS

Surface Preparation Materials

Primers, sealers, putty and cleaning agents that prepare surfaces for proper paint adhesion and a smooth finish.

Surface preparation products including sandpaper, flap discs, wire brushes, scrapers, cleaner, degreaser and etching primer

Product	Surface Preparation Materials
Category	Painting & Finishing Materials
Range supplied	Primers, Sealers, Putty, Cleaning agents
Typical applications	Construction projects, Industrial maintenance, Residential painting
Brands and sources	GCC approved suppliers
Supplied from	Riyadh, Saudi Arabia; delivery across the Kingdom
Enquiries	+966 51 076 7420 (phone / WhatsApp) Info@alsafsaafcontracting.com

OVERVIEW

Most coating failures start with poor preparation, which is why surface preparation materials deserve the same attention as the paint itself. Al Safsaaf supplies primers that bond the coating to the substrate, sealers that block porosity and moisture, putty that fills and levels walls before painting, and cleaning agents that remove dust, grease and contaminants.

These materials are used in construction projects, industrial maintenance and residential painting, where primers and sealers protect against moisture and corrosion and putty gives smooth, even walls. Al Safsaaf sources them through GCC approved suppliers and supplies them with the paints, finishing products and consumables in this category so the whole coating system comes from one place.

Choose preparation products for the substrate and the coating that follows. Masonry, gypsum, timber and steel each need a different primer; existing glossy or chalky surfaces need cleaning or abrading before anything will adhere; putty should be sanded and sealed before the first coat. Allow the full drying time the data sheet states between steps, and check compatibility between the primer and the top coat before ordering.

SUPPLY NOTES

- Primers, sealers, putty and cleaners for every substrate step
- Improves adhesion and extends coating life
- Protects surfaces against moisture and corrosion
- Supplied as part of a complete paint system

TO CONFIRM AT ENQUIRY

Please state the following so the correct item is quoted:

- Primer types by substrate
- Putty type and pack sizes
- Cleaning agent chemistry
- Drying and recoat times
- Brands

> **About this document.** This datasheet summarises the product range supplied by Al Safsaaf Trading & Contracting Company. It is not a manufacturer's data sheet or a mill test certificate. Material grade, dimensions, pressure class, coating and certification are confirmed in the quotation, and manufacturer documentation and test certificates are supplied with the goods where applicable.
